SPEED MATHEMATICS

Course Duration
Dec 2022 to Feb 2023

Course conducted by

DEPARTMENT OF MATHEMATICS
Swa. Sawarkar Mahavidyalaya Beed,
Dist- Beed-431122 (Maharashtra)

History of Mathematics Department
"PURANA " Says that Ravan has 10 dimensions but one can say that Mathematics has more than 100 dimensions . One of the elements of worlds knowledge bank is Mathematics It is difficult task to measure the contribution of Mathematics to the development of culture , excitement and relevance of human being.

Mathematics is not a special type of the language which consists of logics , logical constructions of buildings but also contains the subjects of numbers , space methods of logical conclusion . It gives a pleasure to the brain to man as it entertains the man through simple way , talent of man can be visualized through the study of Mathematics. Different doors of brainpowers can be awakened and elaborated through Mathematics .

Basically the study of sciences like Physical science ,Chemical science, earth and atmospheric science astronomy etc. which leads to the study of nature requires knowledge of Mathematics it is well known fact that development of sciences depends upon the development of Mathematics.

Thus to study this basic management of this college decides to introduce course

of Mathematics at the B.Sc. Level since establishment of college in 1996

COURSE OVERVIEW

Mathematics improves Observation, Concentration and Creativity apart from the Numerical Ability is what leads this young educator to travel around imparting this ancient system. approach to teaching is modern and accessible whereby he facilitates students to learn by discovering new methods of their own

The main objective of this course is to improve basic concepts to UG students and make them well for master degree in mathematics. In this course we provide all basic knowledge in mathematics

Course contain following points:

- Matrix and determinant
- Sets
- Relation and funtions
- Differential equations
- Complex number
- Sequence and series
- Trigonometry
- Vectors
- Differentiation

OBJECTIVES

- Improves calculation speed and numerical skills

- Provides an insight into ancient Indian mathematics
- Sharpens the brain
- Eradicates the fear of Mathematics and instills confidence
- Improves calculation speed and numerical skills
- Is an aid to crack scholarship and entrance exams
- Facilitates a habit of analytical thinking and measured approach towards any problem
- Is useful for everyone – students, professionals, teachers, parents, and the young and older.

ELIGIBILITY

The course is open to all those who are 12 years or older and interested in studying the beautiful subject of Vedic Mathematics, irrespective of their profession or age. It is neither limited to the young nor to the elder. It is for anyone seeking to improve their mathematical skills, the ancient Indian way.

DURATION

The duration of this course is 3 Months (40 Periods). The program schedules divide into three parts covers basic operation. After successful completing the course, Certificate will be issued to the participants.

FEES

Rs. 200/- per participant. (Please note that all Course Fees are non-refundable. We recommend you view the sample lessons provided in each Course before you register.)

DISCUSSION FORUM

We recommend students of the Courses to discuss, share, and exchange notes

Certificate Course in

**BIOFERTILIZER
PRODUCTION**

About the Department of Microbiology

The Department of Microbiology, Swa. Sawarkar Mahavidyalaya, Beed is recognized for skill based student centric activities. The activities boost student development through rigorous trainings. The activities have always contributed in the development of leadership, teamwork, self confidence while undertaking microbiological studies. On progression the activities have always found helpful to enter the various fields of Microbiology including industries, research laboratories and entrepreneurship.

Significance of the course

The purpose of a Certificate Course in Bio-fertilizer Preparation is to prepare students for a career in Bio-fertilizer production. This field is essential for the growth of plants, and it requires experts who are well-equipped with cutting-edge technologies, creative research ideas, and the highest ethical standards. The course focuses on providing professional training for students and empowering them with the right knowledge to make bio-fertilizers. The production of Bio-fertilizers is an increasingly popular industry in the developed world. Because Bio-fertilizers are sustainable and ecologically friendly, many farmers are choosing to use them over chemical fertilizers. The Bio-fertilizers are cost-effective and environmentally friendly, and they ensure sustainable farming

Facilities available

The Department of Microbiology has well equipped laboratory with automated and advanced instruments. equipments, computational facility and audio-visual aids supporting the trainings for students. The 'Certificate Course in Biofertilizer Production' is an opportunity to avail an important training in Industrial Microbiology.

Objectives

The objective of the course is to orient and train the students interested in opting career in agriculture or in entrepreneurship. Specific course objectives are---
Orientation of students about significance of biofertilizers
To offer practical training to cope with the requirements of the industries.
To demonstrate the low cost media preparation and impart training of ecofriendly agricultural inputs in biofertilizer production.

Learning Outcomes

Ability to distinguish the types of biofertilizers and methods of application in farmers field
Development of integrated management for best results using nitrogenous and phosphate biofertilizers.

Course Content

Module-1: Introduction, History and concept of Bio fertilizers , status scope and importance of Bio fertilizers, Classification of Bio fertilizers.

Module-2: Structure and characteristic features of bacterial Bio fertilizers- Azospirillum, Azotobacter, Bacillus, Pseudomonas

Module-3: Production technology: Strain selection, sterilization, growth and fermentation, equipment, mass production of carrier based and liquid bio fertilizers. Quality control of bio fertilizers.

Module-4: Application technology for seeds, seedlings, tubers, sets etc. Biofertilizers -Storage, shelf life, quality control and marketing. Factors influencing the efficacy of bio fertilizers.

The Course duration will be 40 clock hours.

Introduction to Animal Behaviour

Period of Course: 6 weeks:

40 Hours

➤ Introduction:

Behavior is the change in activity of an organism in response to a stimulus. Behavioral biology is the study of the biological and evolutionary bases for such changes. The idea that behaviors evolved as a result of the pressures of natural selection is not new.

The study of animal behavior begins with understanding how an animal's physiology and anatomy are integrated with its behavior. Both external and internal stimuli prompt behaviors — external information (e.g., threats from other animals, sounds, smells) or weather and internal information (e.g., hunger, fear). Understanding the communication, food capturing and escape from predators Environmental flexibility gives animals the opportunity to adjust to changes during their own lifetime.

➤ Objectives of the course:

The learner students able to know about why animals behave the way they do, and how we test hypotheses about behavior scientifically.

The course provides an introduction to the complexities of wild animal behavior, and how it is studied.

During the course, learners will explore the various behaviors animals adopt in order to meet the challenges of their daily lives.

To begin with how animals learn and communicate with each other, then move on to discuss how they find food, avoid predators, choose their mates, and rear their offspring.

Course Outcome:

After completion of the course the student learner will be able to know about the behavioral pattern of the various animals and animal psychology.

➤ Eligibility:

Introduction to animal behaviour is aimed at anyone looking to broaden their understanding of animal behaviour beyond nature documentaries, but this course is designed for the students at graduate entry level.

No previous knowledge is required, only curiosity and enthusiasm for the subject.

History of Mathematics Department

Basically the study of sciences like Physical science ,Chemical science, earth and atmospheric science astronomy etc. which leads to the study of nature requires knowledge of Mathematics It is well known fact that development of sciences depends upon the development of Mathematics.

Thus to study this basic management of this college decides to introduce course of Mathematics at the B.Sc. Level since establishment of college in 1996

COURSE OVERVIEW

In this course our institute provide student all basic concepts which is useful to competitive exam such as U.P.S.C and M.P.S.C mathematics play very important role in competitive exam.

In this course we mainly focused on following topics:

- Number series
- Number system
- Fundamental Arithmetical Operations
- Simplification and Approximation.
- Percentage and Decimal Fraction
- Ratio and proportion
- Data interpretation.
- Logical reasoning and analytical ability

OBJECTIVES

- Improve accuracy in CSAT paper of U.P.S.C
- Improve student basic in calculations.
- Improves calculation speed and numerical skills
- Provides an insight into ancient Indian mathematics
- Sharpens the brain
- Eradicates the fear of Mathematics and installs confidence

सस्नेह नमस्कार...

भारतीय शिक्षण प्रसारक संस्था अंबाजोगाई संचलित स्वा. सावरकर महाविद्यालयाची स्थापना जून १९९५ रोजी झाली. १९९५ पासूनच महाविद्यालयात संस्कृत विषय सुरू आहे. डॉ.बाबासाहेब आंबेडकर मराठवाडा विद्यापीठांतर्गत संस्कृत विषयांमध्ये सर्वाधिक शिक्षण घेणारे विद्यार्थी हे या महाविद्यालयाचे वैशिष्ट्य आहे. महाविद्यालयातील अनेक विद्यार्थी विद्यापीठांमधील गुणवत्ता यादीत आले आहेत. संस्कृत विभागाच्या वतीने १४ मार्च २०२० रोजी महाविद्यालयामध्ये "संस्कृत-मराठी ऋणानुबंध" या विषयावर राष्ट्रीय चर्चासत्राचे आयोजन करण्यात आले. संस्कृत भाषेचा प्रचार प्रसार व्हावा या हेतूने महाविद्यालयातील संस्कृत विभागाकडून संस्कृत संबंधित विविध उपक्रमांचे आयोजन करण्यात येते. त्यामध्ये संस्कृत नाटिका, संस्कृत गीत, परिसंवाद, चर्चासत्र इत्यादी.

प्राचीन भारतीय वैज्ञानिक परंपरेची ओळख विद्यार्थ्यांना व्हावी म्हणून प्राचीन भारतीय वैज्ञानिकांचा परिचय व त्यांचे संशोधन याची माहितीही विविध उपक्रमातून सांगितली जाते. यावर्षी विभागाच्या वतीने दिनांक २२/०८/२०२१ ते ०६/०९/२०२१ या कालावधीत सुलभ व्याकरण वर्गाचे आयोजन करण्यात येत आहे तरी अधिकाधिक विद्यार्थ्यांनी यामध्ये सहभागी व्हावे.

Department Of Computer Science

Certificate Course in Basic C Programming- Broucher

Introduction

- C is a middle-level programming language developed by Dennis Ritchie during the early 1970s while working at AT&T Bell Labs in the USA. The objective of its development was in the context of the re-design of the UNIX operating system to enable it to be used on multiple computers.
- C is a general-purpose programming language and can efficiently work on enterprise applications, games, graphics, and applications requiring calculations, etc.

Benefits of Basic C Programming

- As a middle-level language, C combines the features of both high-level and low-level languages
- C is a structured programming language which allows a complex program to be broken into simpler programs called functions. It also allows free movement of data across these functions.
- C language is case-sensitive which means lowercase and uppercase letters are treated differently.
- High Speed and High performance

Introduction to Animal Behaviour

Period of Course: 5 weeks

40 Hours

➤ Introduction:

Behavior is the change in activity of an organism in response to a stimulus. Behavioral biology is the study of the biological and evolutionary bases for such changes. The idea that behaviors evolved as a result of the pressures of natural selection is not new.

The study of animal behavior begins with understanding how an animal's physiology and anatomy are integrated with its behavior. Both external and internal stimuli prompt behaviors — external information (e.g., threats from other animals, sounds, smells) or weather and internal information (e.g., hunger, fear). Understanding the communication, food capturing and escape from predators Environmental flexibility gives animals the opportunity to adjust to changes during their own lifetime.

➤ Objectives of the course:

The learner students able to know about why animals behave the way they do, and how we test hypotheses about behavior scientifically.

The course provides an introduction to the complexities of wild animal behavior, and how it is studied.

During the course, learners will explore the various behaviors animals adopt in order to meet the challenges of their daily lives.

To begin with how animals learn and communicate with each other, then move on to discuss how they find food, avoid predators, choose their mates, and rear their offspring.

Course Outcome:

After completion of the course the student learner will be able to know about the behavioral pattern of the various animals and animal psychology.

➤ Eligibility:

Introduction to animal behaviour is aimed at anyone looking to broaden their understanding of animal behaviour beyond nature documentaries, but this course is designed for the students at graduate entry level.

No previous knowledge is required, only curiosity and enthusiasm for the subject.

- Course Convenor: 1. Dr. Dhere R. M. (Associate Professor in Zoology)
- Course Co-Ordinator 2. Dr. Dhond G. M. (Assistant Professor in zoology)

COURSE CONTENT

- Week: 1 Introduction of animals. Distribution and types of animals. Study of habitat Animal behavior, including evolution, natural selection, and the scientific method (8 periods)
- Week: 2 Offence and Defense behaviour. Finding food and avoiding predators behaviour. Finding and exploiting food resources. (6 Periods)
- Week: 3 Communications. An introduction to the various means animals use to send signals to each other, and how these signals are influenced by the environment and social context. (6 Periods)
- Week: 4 : Learning, cognition and development. (4 Periods)

History of Mathematics Department
"PURANA " Says that Ravan has 10 dimensions but one can say that Mathematics has more than 100 dimensions . One of the elements of worlds knowledge bank is Mathematics It is difficult task to measure the contribution of Mathematics to the development of culture , excitement and relevance of human being.

Mathematics is not a special type of the language which consists of logics , logical constructions of buildings but also contains the subjects of numbers , space methods of logical conclusion . It gives a pleasure to the brain to man as it entertains the man through simple way ,talent of man can be visualized through the study of Mathematics. Different doors of brainpowers can be awakened and elaborated through Mathematics .

Basically the study of sciences like Physical science ,Chemical science, earth and atmospheric science astronomy etc. which leads to the study of nature requires knowledge of Mathematics It is well known fact that development of sciences depends upon the development of Mathematics.

Thus to study this basic management of this college decides to introduce course

of Mathematics at the B.Sc. Level since establishment of college in 1996

COURSE OVERVIEW

India has produced many mathematicians whose discoveries have benefitted the world. One such mathematician was Swami Bharati Krishna Tirtha (1884 – 1960). As a student of the Vedas from 1911 – 1918, he stumbled upon few Sutras (aphorisms or word-formulae). After extensive research on these sutras, he reconstructed 16 Sutras and 13 Upa-sutras using which numerical calculations can be done in simpler and faster ways. This gives us the liberty to choose the technique most convenient for us. This is the beauty of Vedic Mathematics.

Vedic Mathematics is a blessing to everybody in this day and age when people's numerical skills are deteriorating as the use of calculators is increasingly commencing at a younger age. Vedic Mathematics' shorter, quicker and easy to remember techniques enable any student to do calculations faster than they would with conventional methods. Students of Vedic Mathematics dispel their fear of mathematics and gain a new-found confidence to work on any mathematical problem without apprehension. This Vedic Mathematics course aims to promote the traditional knowledge of Mathematics mastered by the mathematicians of ancient India.

Vedic Mathematics improves Observation, Concentration and Creativity apart from the Numerical Ability is what leads this young educator to travel around imparting this ancient
