### Certificate Course MSOFFICE

#### Introduction

MS Office helps simplify basic office tasks and improve work productivity. Each application is designed to address specific tasks, such as word processing, data management, making presentations

- Msoffice is a word processor that lets users make and edit text documents, such as reports, letters, and résumés and run spell-checks on writing
- Microsoft Excel: is an electronic spreadsheet program that helps you store, organize and manipulate data by creating simple to complex spreadsheets
- Microsoft PowerPoint: allows you to visually display information, using anything from basic slideshows to professional multimedia presentations

Microsoft Office is either available as a package or you can buy stand-alone Microsoft Office applications, such as Word or Excel, separately.

#### Objective of Course

- 1 To Develop c Programming Language Skill.
- 2 After Completion Course Student Can able to develop C program
- 3 Student can Solve different Mathematical or Logical task using C Programming
4. To develop depth knowledge of programming language .

#### Duration of Course:

- 1 Course Duration is 30 Days.
2. It will start in from 1 January 2023 and end on 30<sup>th</sup> January 2023

**Fess of the Course :** This Course is free to all students who can register

**Examination:** 100 Marks Examination in the Month of October

**Certificate :** After Successful Completion of this Course student get the certification .

**Certificate Course in  
Basic C Programing**

### Introduction

C is a middle-level programming language developed by Dennis Ritchie during the early 1970s while working at AT&T Bell Labs in the USA. The objective of its development was in the context of the re-design of the UNIX operating system to enable it to be used on multiple computers.

C is a general-purpose programming language and can efficiently work on enterprise applications, games, graphics, and applications requiring calculations, etc.

As a middle-level language, C combines the features of both high-level and low-level languages

C is a structured programming language which allows a complex program to be broken into simpler programs called functions. It also allows free movement of data across these functions.

C language is case-sensitive which means lowercase and uppercase letters are treated differently.

High Speed and High performance

### Objective of Course

- 1 To Develop c Programming Language Skill.
- 2 After Completion Course Student Can able to develop C program
- 3 Student can. Solve different Mathematical or Logical task using C Programming
4. To develop depth knowledge of programming language .

### Duration of Course:

1 Course Duration is 30 Days.

2. It will start in from 1 September 2021 and end on 30<sup>th</sup> September 2021

**Fess of the Course :** This Course is free to all students who can register

**Examination:** 100 Marks Examination in the Month of October

**Certificate :** After Successful Completion of this Course student get the certification .
