To Whom So Ever It May Concern

It gives me immense pleasure to write words of recommendation for Master's Software Group.

We had procured Library Management System (LIB - MAN) in November 2011. Company had successfully converted the whole data of old software to LIB - MAN.

We are using LIB - MAN in ten computers. We have provided four computers to the students & faculty for Online Public Access Catalogues (OPAC).

The Circulation is online using barcode. These barcodes are printed using Lib-Man Software; in all we have 14628 books. All our requirements are fulfilled by this software & it is user friendly.

On my suggestions company added some extra features to LIB-MAN. The service support (On-site & Online) given by the company is excellent. I understand that company has also launched web-based library software with multilingual facility and we are in process of upgrading the same.

With great pleasure I strongly recommend Master's Software Group for their Library software. Our college is also successfully using their college management system (CMS) software which includes Fees collection Student administration, Accounts, Payroll & College examination system.

I strongly recommend Master's Software Group for their Library software. Our college is give one of the best facility for the student.

CERTIFICATE Whom May to Concern

It gives me a great pleasure in mentioning about the software's developed by Master's Software Nagpur. From the last 15 years Master's Software is in the development and computerization of college management.

The software contains the following modules-

- ❖ Admission & Fees Collection
- ❖ Scholarship
- ❖ Payroll Management System
- ❖ Account Management System

Using these packages it got easier to handle all the activities. Like, from student's fees to TC, reports can be generated. Scholarship reports can also be created. In Payroll module it creates numbers of reports which also contains form no. 16. In addition with this the other benefit is that it can maintain any number of accounts of financial years.

The extensive training of both the packages was given by the team of the It Is The Master's Software. Both the packages have been implemented successfully; the services are excellent from training to support. There is multi-user facility in it, and finally the data security which is the most crucial part, is there in it.

The packages provided by the company are excellent, useful and they are the best service providers.

With a sense of satisfaction, I strongly recommend the above packages.
